

I am a Nurse

I have washed his naked body
I have combed her thinning hair
I have held his hand in the smallest hours
And shared in her despair

I have watched you getting better
I have seen your lows and highs
I have helped you back from the brink of death
And I've watched you fade and die

I am a nurse, I am a nurse

I have listened while you ranted
I have caught you as you fell
And I want you to know though it's hard for me
I'll still be there for you

I am tired and I am frantic
It can be a thankless task
But I'll keep on being there for you
I'll do whatever you ask

I am a nurse, I am a nurse
I am a nurse, I am a nurse

I have strength to carry on
Because I know what you are worth
Though we're on our knees, we're still here to please
The Most rewarding job on earth.

I am a nurse, I am a nurse
I am a nurse, I am a nurse etc.
